1/2

I am performing an initial review of this case. I am responsible for ensuring we understand your issue and collect the relevant information in order to commence investigating this case.

Firstly I would like to confirm the problem.
You are unable to create a flow using the Anypoint Design center?

Please kindly confirm we understand correctly, if yes share the below details

1. Details of what are you trying to do?
2. share the error message or error log?
3. Screenshots of the error
4. reproduce the issue and capture HAR file (refer attached KB), attach it to this case

Regards,
Jay
